- Minimize expenses on health by investigating and taking action on immediate cause, underlying cause & root cause of the health issue.

Get the best industrial Health services for your organization!!

2. FIRE & SAFETY

All employers are legally, socially & morally responsible to protect their workforce from risks arising from work-related activities. The implications of accidents comes with hefty fines, legal notices, loss of corporate image & business etc. Every organization should have a Health and Safety policy in place that covers all the aspects of the organization and is relevant to the workforce.

At HSSEQ Global Pvt. Ltd. we are committed to provide expert Safety professionals, Trainings and quality Goods to tackle risks arising from Workplace hazards & Fire and to achieve a zero-accident workplace.

Why Workers Safety Matter?

If you are still unsure whether you should implement the standard HSE principals in your organization or not, we have the right answer for you.

Workers often face injuries, illness or even death on workplaces. According to the International Labour Organisation (ILO) estimate, more than 125 million workers are victims of occupational accidents and disease in a single year. Of these approximately 220,000 workers die and about 10 million are seriously disabled.

THIS LOSS IS PREVENTABLE BY IMPLEMENTING STANDARD HSE MANAGEMENT SYSTEM.

OUR FIRE & SAFETY SERVICES:

- We provide Fire & Safety officers & Supervisors, Fire fighting systems, Safety PPE & allied services & goods.
- We conduct thorough Fire risk assessment, HAZOP study of the workplace to make sure safety is ensured and regulatory compliance are met.
- Fire audits/Safety audits and trainings.
- Mock drills & evacuation trainings in case of fire and other natural calamities.

3. INDUSTRIAL SECURITY

Workplaces such as construction sites are expensive and can be a dangerous place as it is prone to theft, arson, untoward injuries and more! Depending on the size of the construction site, the tool, machinery, material, and equipment can alone cost a lot of money. A site can be under construction for many months or even years and leaving the equipment, material and machinery on site can call for a host of potential disasters.

The role of Security on a worksite is very crucial as it not only protects the valuable items but also protect workers and employers from workplace violence etc.

Common On-Site Security Risks_

HSSEQ Global provide security cover to your site & prevent criminals from approaching our client's workplaces to cause costly damages.

Workplaces are often vulnerable to damage from:

Theft of Machinery

Natural Disasters

Wind & Water Damage

Vandalism and Arson

Workplace Violence

Theft of Material and Fuel

What We Provide in Security Services

Security Guards, Armed guards, CCTV and Drone Monitoring, Crowd Control, Corporate Event Crowd Management, Security Vans for Cash Transfer etc.

Secure your workplace & workforce from potential accidents!

Choose a Multi-Layer Approach

HSSEQ Global Pvt. Ltd. incorporates a multi-layer approach to provide on-site security solutions to our clients. Equipped with latest surveillance technology we secure & supervise our clients perimeter 24/7 for utmost security.

To determine the threats your business is vulnerable to, we carry out an on-site risk assessment. For each potential threat, the security managers give the site a rating to determine the area which is in dire need of security. Further, we devise a plan of action specifically tailored to your organizations' needs.

4 ENVIRONMENT AND QUALITY

'Environment'

At HSSEQ Global, we aim at creating a safe and healthy workplace for our clients. Further, we are also committed to the continuous improvement of Environmental performance and Management.

We make it easy for organizations to commit to a long-term sustainable approach to caring for and safeguarding the environment. Making your business environmental friendly minimising environmental impact & help you save resources for the future generation.

Nowadays, companies are focused on reducing waste and minimizing their environmental footprints. They are moving toward more sustainable retailing, increased resource productivity and optimized material usage. Companies are making strong commitments to sustainability, through transparency and addressing material issues.

Our environment policies include two major components that help organizations minimize their impact on the mother earth and achieve their objective.

Waste Reduction

We help organizations preserve the environment by using the principles of reusing, reducing, and recycling. We are committed to working toward recycling several materials including plastic bags, bottles and cans, metal and other substances commonly found on site.

Resource Conservation

Our professionals help organizations to focus on improving energy efficiency, reducing energy costs, and identify new opportunities. Whenever possible, we make it easy for businesses to dispose or recycle the construction debris to minimize the impact to the local landfills.

Our Environmental services

Having an environmental policy can provide significant benefits for your business. We provide :-

- Pollution Monitoring - Air, Water, Noise etc.
- ESG-Environmental Social Governance
- Environmental Project Feasibilities
- Project Environmental Advisory Services
- Due Diligence & Environmental Site Assessments
- EIS, EIA, ESIA, HSEIA & QHSE Services
- EMS Development & Accreditation Support
- Environmental Monitoring and Reporting
- Environmental Audit and Compliance Audits
- Sustainability Reporting
- Lender Documentation and Reporting Services

Improve Your Business Sustainability by
Reducing Your Environmental Impact

'Quality'

As an organization, you need to have a basic quality management process to create a set of objectives for your business. The chosen quality objectives should be in alignment with a specific department, process, team, or project.

Organizations should make an effort to provide the best solutions to their customers. At HSSEQ Global, we have a defined quality objective for our customers which is continuously verified and revised.

We Offer High-Quality Solutions By:

- Understanding our client's requirements
- Finding the best and most competitive solution
- Acting as trustworthy and reliable partners
- Having experienced and knowledgeable professionals onboard
- Swift implementation of changes
- Offering necessary resources for the development of the company

To Achieve Our Aim, We

- Deliver highest quality solutions which fulfill our customer's requirements and live up to the international standards
- Give our clients' professional advice
- Find an optimal solution to solve our customer's problems
- Ensure our employees are familiar with the demands of quality and documentation
- Organize training seminars to enhance quality awareness

Examples of Company's Quality Objectives

- Reduce product defect
- Obtain 100% customers satisfaction
- Increase operation efficiency

Quality management services offered by HSSEQ Global are dedicated to cover processes and quality management. We understand that quality management help increase customer satisfaction, maximize output and increase business productivity.

The aim of effective quality management for any organization is to deliver products and services that meet the clients' requirements, with maximum efficiency. At HSSEQ Global, we have a network of highly skilled and experienced professionals that provide a clear assessment of the organization. This assessment will empower and encourage your staff to consistently put quality first, improve performance and ensure your quality management meets international standards.

5. MACHINERY AND MANPOWER

Machinery and manpower are indispensable assets in modern industries. Machinery streamlines processes, boosts productivity, and ensures precision. From assembly lines to robotics, it accelerates production. However, human labor adds creativity, problem-solving skills, and adaptability. Skilled workers contribute craftsmanship and innovation, complementing machinery's efficiency. The synergy between the two is crucial for operational success. While machinery handles repetitive tasks, human workers oversee operations, troubleshoot issues, and drive continuous improvement. Balancing machinery and manpower optimally maximizes productivity, minimizes downtime, and sustains quality standards in today's competitive landscape.

Our Services

We Provide on Hire Excavators, Proclaine, Dumpers, Tippers, SUV Vehicles for personal use and Manpower for Facility Management Housekeeping etc.

We Have Solutions For Your Problems!

Dr. Sunny Khajuria

(Founder Director at HSSEQ GLOBAL Pvt. Ltd.)

WHERE IT ALL STARTED

The journey started in 2012, in the form of a Medical goods & staffing company which initially served Health & Medical needs of industries and businesses within the boundaries of Indian state of Jammu & Kashmir.

The founder, Dr. Sunny Khajuria, who is an Occupational Physician & Qualified Industrial Safety professional, noticed the various road blocks faced by industries to attain the standard HSSEQ requirement. There was an immediate need for a single platform with unified availability of HSSEQ Goods & Services, HSSEQ Global Pvt. Ltd. was formed to fill this gap.

At HSSEQ Global, we are World Wide Supplier of Goods and Services related with **Industrial Health, Fire Safety, Industrial Security, Machinery on hire & Manpower, Environmental & Quality compliances.**

International HSE norms from the core of our operations. We provide end to end solutions and cover all legal liabilities related with our good and services.

We give high priority to our terms of engagement with our client and perform the assigned tasks within deputed time frame.

We zeal to bring down the preventable loss of men and material in industries associated with construction, manufacturing, infrastructure, mining, oil and gas etc. by providing International standard HSE goods and services.

Our teams are dedicated to maintain Healthy & Safe work places by continuous monitoring of health statistics, timely workplace inspections, emergency services, scheduled Industrial health trainings, security services, Machinery and equipments on hire & manpower supply, thereby promoting standard HSSEQ norms and safety culture, minimizing loss of working hours and inched productivity.

WE ARE ON A MISSION!

 International Labour Organisation (ILO) estimates that more than 125 million workers are victims of industrial accidents and disease in a single year. Of these approximately 220,000 workers die and about 10 million are seriously disabled.

 In INDIA, nearly 48,000 workers die annually due to occupational accidents, of which the construction sector contributes 24.2% of the fatalities says an international report.

This is an ASTOUNDING number and must be changed.

There is a shortage of organizations in India that are solely focused on HSSEQ aspect. HSSEQ Global Pvt. Ltd. was formed with an aim to bridge the gap and provide qualified manpower along with high-quality product and services according to standards set by ILO and WHO.

OUR VISION

“India with 1.45 billion population has a strong workforce of 477 million. However, only 20 percent of them are covered under the existing Health and Safety legal frame.”

Though there are laws in the country to address the Health and Safety concerns, yet with the absence of adequate manpower & resources, companies often choose to ignore this important aspect.

Construction sites are the most dangerous workplaces. This is the place where most occupational accidents occur. Employers should protect the Health and Safety of their workforce regardless of the industry they deal in.

At HSSEQ Global, we believe everyone has the right to stay safe and secure. We work towards providing a safe and secure work environment for our clientele & to promote a positive Safety driven work culture.

OUR HAPPY CLIENTS

Our diverse client base spans across Mining, Oil & Gas, Construction management firms, Business owners, Health and Safety leaders, Contractors, and various Industrial sectors. We cater to the unique needs of each, offering tailored solutions and expert guidance. Whether it's optimizing operations, ensuring regulatory compliance, or enhancing safety protocols, we deliver comprehensive support to drive success.

Our commitment extends beyond mere services; we forge lasting partnerships, empowering clients to navigate challenges and seize opportunities with confidence. With a steadfast focus on excellence and innovation, we are the trusted ally for businesses seeking sustainable growth and resilience in dynamic industrial landscapes.
